

Rating of Image Style Transfer

This is a questionnaire about the overall style of the picture and the style of the animation. Please rate the overall style and cartoon style of the picture from 1 to 5. The higher the score, the higher the quality of the image you think. Each set of pictures has one original image as a reference and seven corresponding style pictures. There are 25 sets of pictures in this rating.

Note: If you observe that the image has artifacts in terms of texture or a noticeable color change, we normally consider the picture's quality poor.
